Introduction

To ensure that your TVRCSATPS-RS remote control is correctly set up to work with your equipment, it is very important that you observe the following instruction.

Setting up your TVRCSATPS-RS remote control to operate your TV

Your TVRCSATPS-RS remote control will also operate your TV. It has a default setting to Sony, so if you have a Sony television, your TVRCSATPS-RS remote control should already enable television operation.

To set up your brand of TV please follow these steps:

1. Turn on your TV.
2. Find your TV manufacturer listed in the code list. e.g. Phillips is 0944.
Write down your TV code here [] [] [] []
[]. If your TV is not listed, press [interactive] and select "Customer Service" for further assistance.
3. Press [TV].

4. Hold down [select] and the red button together for about two seconds, until the red LED on the remote flashes twice.
5. Press [TV] again.
6. Key in the four digit code for your brand of TV. The LED on the remote control will flash twice. If the LED illuminates only once, re-check the code for your brand of TV and start again at step 3.
7. Press the [Power] button on your remote control. If your TV switches off, press [select]. The LED on the remote control will flash twice. If your TV does not switch off, press [TV], then press the [Power] button. Repeat this (press [TV], then [Power]) until your TV turns off, then press [Select].

To reset your remote control to it's factory settings, press [TV] then hold down [Select] and the [Red] button together for about two seconds, until the red LED on the remote control flashes twice. Then press "981".
